

# DOUBLE NOZZLE

■ ■ Manufactured in France by Oxy'Pharm according to ISO 13485.

The **Double Nozzle** is a system adapted for treating long and narrow spaces. It is connected to the **Nocospray** and allows a more distant projection of the product.

## CHARACTERISTICS

- Double nozzle adaptable to Nocospray (sold separately)
- Doubles the product consumption compared to a single nozzle
- No obstacles within 1.5 metres of the nozzle outlet

## COMPATIBILITY

- Nocospray
